

LUIS CHAVEZ

Full Stack Software Developer

ABOUT ME

Hello! My name is Luis and I have recently developed a great passion for writing code. Before I enrolled at Nashville Software School, I attended college to pursue a Medical Degree. Once I realized that career path was not right for me, I was drawn to Software Development. I always had an interest in web development and had done some studying on my own, however; a whole new world of opportunities was available to me through this program. One of my favorite aspects of software development is that there is always something new to learn and the possibilities for growth are endless.

Nashville Software School
Full Stack Software Development
2019-Expected Graduation Date: May 15

Front-End Capstone - EPLP

- Website for individuals with mass collection of albums and vinyls. This website gives the user ability to catalog and organize the collection. This application also lets users create playlists or "Mixtapes" with music they already have.

Back-End Capstone - Roads

- Website was intended for car enthusiasts and it's a great way for people interested to find there first events. This app lets users post and RSVP to events so users can find events of the type they like. This app also lets users add their car builds to share with other users. Users also have the ability to post parts for other users to buy.

WORK EXPERIENCE

National Pen Company | Seasonal 2018
Sales

- Wompany that did phone, email and internet sales. Sold pens and other advertisement products
- Was able to always meet and go over quotas which was rewarded with commission opportunities
- Worked in Sales but supervisor was impressed by congeniality and helped the Customer Service Team

Onsite Fleet Management | 2019
Pre Delivery Inspection Technician

- Company managed the car leasing program for all Nissan employees in Smyrna and surrounding areas
- Was able to find ways to cut the time each vehicle inspection took by creating a more flowing process. Overall productivity of teams increased as a result.
